PUBLIC HEALTH INSPECTOR

for the

YEAR 1971

Preface to the Report

District Health Office,
County Health Department,
Merlins Hill,
Haverfordwest.

July, 1972

To: The Chairman and Members of the
Milford Haven Urban District Council

Mr. Chairman and Gentlemen,

We present the Annual Report for the year 1971. Details will be found in the body of the report. The main items are summarised as follows:-

Population

The estimated population for the District showed a small increase over 1970. Since 1947 there has been a population increase of approximately 27%.

Birth Statistics

The General Birth rate decreased over the preceding year, and was lower than the National rate.

There was a small increase in the number of Still births, and a considerable increase in the number of Illegitimate births.

Mortality Statistics

There was an increase in the number of deaths over the preceding year resulting in a somewhat higher Death rate. The rate, however, compares favourably with the National Death rate.

Vascular diseases of the Heart, Brain and Circulatory System, accounted for 60% of all deaths.

There was a decrease in the number of Cancer deaths over the preceding year and the Cancer Death rate compares favourably with the National rate.

There was a considerable decrease in the number of Infant deaths, giving a very satisfactory Mortality rate for the District.

There was also a large fall in the number of Accidental deaths, and for the third successive year no deaths attributable to Tuberculosis.

Infectious Disease

There was a very low incidence of Infectious Disease in the District during the year.

Environmental Hygiene and Sanitation

There are no major sanitary problems in your area.

Sewage disposal is by short sea outfall after treatment by a comminutor at Hakin Point. This outfall is to be extended in the near future. As in the other districts in North Pembrokeshire space for the controlled tipping of refuse is becoming very short and it is hoped the commissioning of a joint treatment plant in the not too distant future can be anticipated.

Air pollution monitoring apparatus continues to be operated in various parts of North Pembrokeshire by the Haverfordwest Rural District Council. The importance of monitoring and recordings of this subject matter over the years cannot be over emphasised in relation to the build-up of an industrial complex around the Haven.

During the year, the Council's housing programme has seen the completion of the first phase of the Mount Estate, while the full development of this site in stages is likely to satisfy housing needs in the area for some time.

As an extension of the Council's housing policy, the rehabilitation of private housing in their area is to receive a massive boost with the declaration of two General Improvement Areas. It is hoped that these will result in a significant and lasting improvement to the environment and coupled with the appointment of an Improvement Grants Officer, a similar improvement in actual house standards will be evidenced.

The commercial centre of the town has improved considerably over the last few years, thanks largely to the Council's efforts. The open air market at Manchester Square is now a lively scene on a Friday. The growing popularity of Milford Haven as a shopping centre is due in no small part to the adequate free car parking facilities made available by the Council.

Conclusion

We wish to thank all departments of the Council and their staff for assistance during the year, and the Members of the Council for their continued courtesy and support.

We remain,

Your obedient servants

GENERAL HYGIENE AND SANITATION

1. Refuse Collection

Refuse is collected weekly from all domestic premises in the Urban District and as often as necessary from food premises and industrial undertakings. Three Shelvoke and Drewry rear loading fore and aft tippers are used with a gross nominal capacity of 43 cubic yards.

In accordance with the provisions of the Transport Act, 1968 a Fitter Transport Manager has been appointed and the build-up of an effective well equipped service centre continues.

Approximately 1,323 premises are served by a paper sack refuse collection system, while the conversion of the remaining 100 or so bins to the newer plastic bin-sack system is well under way.

The installation of this system seems greatly appreciated and combines the advantages of an improved service to the public, easier handling and a reduced litter problem.

2. Refuse Disposal

The deliberations of the Joint Committee for Refuse Disposal comprised of the Haverfordwest Rural District Council, Haverfordwest Borough Council, Fishguard and Goodwick Urban District Council and Milford Haven Urban District Council have met many delays and the commencing of a joint plant seems as far away as ever.

In the meantime controlled tipping continues at the Moads. The existing tipping area is expected to last until mid 1972 when work will proceed to the small field behind the Laundry where tipping can continue for a limited period. The high standard of control is maintained and reflects in the small number of complaints received.

2. Sewage Disposal

It is estimated that 98% of the premises in the Urban area are connected to the public sewer.

The parts not served are:-

Coombs and Cellar Hill	Approx.	8 houses
Liddeston, Havens Head, Steynton	"	67 houses

3. Rodent Control

Rentokil Laboratories Limited, Pest Control Division, are under contract to this Authority to carry out the control of rats and mice in your area. A local operative of the company is in attendance daily from Monday to Friday to deal with complaints and carry out any survey and block treatment necessary.

The town sewers were treated twice in the year, on each occasion one hundred openings were baited with sodium fluoracetamide.

It is felt that the Council can feel well satisfied with the effectiveness of this service.

4. National Assistance Act, 1948

There were no burials under Section 50 of the National Assistance Act, 1948.

5. Public Conveniences

Public conveniences are situated at the Market Square, North Road, The Rath, Gellyswick Road and Spikes Lane. One urinal for the use of males only is sited at Victoria Road.

6. Mortuaries

One modern fully equipped mortuary is situated at Dartmouth Gardens.

7. Public Halls and Cinemas

The two cinemas operating in the town and the three public halls have separate sanitary accommodation for both sexes.

8. Public Baths

An open air Swimming Pool is situated on The Rath. Sea water is pumped from the Haven and is filtered and chlorinated.

9. Camping and Caravan Sites

There is one caravan site in the area at Court Farm, Liddeston, which has permission for six caravans.
